# bondiworldexpo - revisited

two worlds | one beach | by andre braun

Following an exhibition at the Bondi Pavilion Gallery in 2012, revolving on the Northern part of Bondi, bondiworldexpo revisited is focussing on exploring bondi beach from a very unique perspective.

## Exhibition:

**October 2 until October 30, 2014 at the Waverley Library Galleries, 32-48 Denison Street, Bondi Junction**

### FOYER GALLERY | 'Two Worlds – One Beach'

This is a story of the two most flamboyant residents of this amazing place. On beautiful Bondi Beach, seagulls and humans inhabit the same space, one beach caught in two worlds.

As humans, in our search for the magical feeling of freedom we share one goal in common with the gulls, to defy gravity. The analogy is of worlds apart, dancing together, entwined in one unique location.

This exhibition seeks to look at this beautiful beach from an unusual perspective, capturing that moment of magic as if gravity did not exist!

"Logic will get you from A to B. Imagination will take you everywhere.  
Albert Einstein

## [scale photography]

### ATRIUM GALLERY | 'Scale Photography at Bondi Beach'

This is a journey of exploration, discovering and reimagining the beauty of Bondi Beach on a different scale. Maquettes of human models have been physically scaled down, then strategically positioned in the landscape to visualise reality from a new and unique viewpoint.

This exhibition breaks new ground, creating a fresh perspective view of our familiar 'Bondi World'.

Sydney, 9 July 2014, for immediate release
